ABOUT ME

Creative, detail-driven Instructional Designer who turns complex ideas into clear, engaging learning experiences. Skilled in interactive e-learning, microlearning video, and blended solutions using Articulate Storyline, Rise, Adobe Captivate, and Premiere Pro — with a focus on content that's measurable, scalable, and genuinely useful to learners.

WORK EXPERIENCE

Senior Instructional Designer | RSM

January 2026 - Present

- Build foundational knowledge resources for a new team from the ground up, including playbooks, SOPs, reference guides, and buyer's guides; establish master formats and reusable templates for documentation and video content.
- Design and develop interactive e-learning courses for a sales-focused audience (Business Developers) using Articulate Rise and PowerPoint.
- Lead a microlearning video series — planning, filming, and editing short-form videos — supporting onboarding for new hires and continuous learning for existing employees.
- Own content updates and organization on the team's SharePoint site to keep resources current and easy to navigate.
- Create engagement content on Viva Engage to build visibility and connection across the organization.
- Partner with the LMS team, submitting requests to upload content and set up learning groups, curricula, and playlists.

Instructional Designer | Adobe Inc.

April 2024 - January 2026

- Created and curated onboarding and training communications, including newsletters, release-readiness updates, and enablement content tailored for new hires and customer-facing teams.
- Produced and maintained internal knowledge base content, including wiki documentation and SharePoint sites, ensuring accuracy, usability, and alignment with evolving business processes.
- Led the redesign of New Hire Onboarding programs and supported development of enablement roadmaps to enhance role-based learning experiences.
- Collaborated cross-functionally with technical subject matter experts to develop clear, accessible training content and optimize communication strategies.
- Applied content performance insights to continuously improve engagement and effectiveness across training and enablement assets.
- Supported technical course development teams by coordinating tool activations, managing timelines, and streamlining content delivery.

Instructional Designer | Capline Services

October 2022 - April 2024

- Designed and developed user-friendly SOPs and training modules for complex medical billing processes, focusing on clarity, accessibility, and learner retention.
- Created engaging onboarding experiences for new hires, conducted training evaluations, and supported compliance and performance assessment workflows.
- Collaborated cross-functionally to assess training needs and contribute to scalable learning content and documentation.
- Produced internal communications and training support materials — newsletters, email campaigns, and visual content — tailored for multiple platforms and audiences.

PROJECTS

Capline Services

- LMS Setup, Migration & Pilot: Led the migration from Litmos to Moodle — including LMS research and POC, partner coordination, system testing, and overseeing the pilot phase from data upload through issue resolution.
